FOR IMMEDIATE RELEASE

## Ramsey Announces New High Performance Winch Series

(Tulsa, Oklahoma) The NEW Patriot Series combines the proven design of the Platinum and Pro Plus Series winches and takes it to the next level. The Patriot Series is made up of four models: 6000, 8000, 9500 and 15,000 lbs.

The Patriot Series is a high performance winch for the off-roader that demands the best. The series has the following specifications and features:

The Patriot Series motors and solenoids are grounded directly to the battery. This eliminates poor grounding that can cause performance failures and damage to the winch. The Patriot Series all have a powerful 5.5 hp 12 V DC motors for increased pulling power. The Patriot Series comes with either a 12 ft. wire pendant remote OR the patent pending wireless remote. Enhanced automatic load-holding brake design for strength and reliability. 3-stage planetary gear system for fast line speed. Limited lifetime warranty Ramsey Winch will donate a portion of the proceeds from the sales of the Patriot Series to the Twin Towers Fund.
