FOR IMMEDIATE RELEASE

Ramsey Develops First Wireless Remote Winch for ATV

(Tulsa, Oklahoma) Ramsey Winch now offers a new unique ATV winch with wireless remote, which uses 36% less amps than other brands. These important features make the ATV2500 stand out as something no other ATV winch offers.

The wireless remote works from 50 feet away, and the efficient powerful motor pulls up to 2500 lbs. This means more pull, longer winching with the ease of winching from virtually any position with the remote.

Other features of the ATV 2500 include: heavy duty 12 volt electric reversible motor, weather resistant solenoid assembly, 3-stage planetary gear system for fast line speed, optional automatic load-holding brake for strength and reliability, cam action clutch disengages planetary gear system for free spooling, 4-way roller fairlead and a limited time warranty.

For pricing and availability of the Ramsey ATV 2500 Winch contact your authorized Ramsey dealers.

For more information visit our website at ramsey.com.

For over 50 years, Ramsey Winch has been a leader in the winch industry. Ramsey currently manufactures over 150 winch models for front mount self-recovery and industrial applications. Headquartered in Tulsa, Oklahoma, Ramsey Winch markets their products in more than 85 countries worldwide.
