## **New Ramsey Compact HY-800 Worm Gear Winch**

(Tulsa, Oklahoma) Ramsey Winch Company world leader in Towing & Recovery winches introduces the new HY-800 Hydraulic worm gear winch which features a short coupling and low profile style shifter. This winch offers a more compact design to fit a variety of heavy duty industrial applications.

The new HY-800 is shorter and narrower than its standard HY-800 counter part. The overall height of the HY-800 has been reduced by 6.22" by using the new low profile shifter, and the overall width has been reduced by 4.69" with the addition of the short coupler.

Ramsey has provided quality products for over 60 years worldwide. Known by the reputation earned in the Professional Towing & Recovery markets, Ramsey is the leader in product innovation and technology. Ramsey is certified to ISO 9000:2000.
